

AIRLESS LINE MARKING EQUIPMENT

Power control on the road

Proven performance

Defined lines at the first pass

TECHNICAL QUALITY CERTIFIED WE'RE SPECIALIZED IN AIRLESS TECHNOLOGY

LARIUS professional airless road marking machines joins product performance with operator needs and allow marking and maintenance of all types lines for flooring, highways, airfields, crossings pedestrian, bicycle paths, parking lots, squares and all that is required by the code of the road in the field of horizontal sign age, guaranteeing perfect lines on different surface levels.

Airless technology provides high-pressure paint spray through airless nozzle of centimetre size versus traditional spraying allow pressure where the flow of paint is sprayed through the air supply.

ADVANCED MARKING SOLUTIONS Benefits of use

AT THE FIRST PASS NET MARKING LINES

With only one "pass" the marking line is defined uniformly: the line of an airless spraying is linear, clear and sharp thanks to the flat cutting airless nozzle and without jagged effects due to the turbulence caused by the air.

OVER SPRAY MINIMIZED

Airless operation marking eliminates the classic "Overspray" particle dispersion of paint typical of traditional air paint.

This results in a paint saver, in the larger one protection for the health of the operator and the environment.

SAVES UP TO 30% OF PAINT

Thanks to the lack of Overspray the almost totality of the product used is applied to the surface without waste.

VIBRATION REDUCTION

Vibration reduction ensures the quality of the lines best in the road marking sector.

THE PAINT DRIES QUICKLY

Airless marking operation requires the use of filtered varnish specific for airless applications, this in itself means homogeneous, smooth and uniform texture that does not will make any crust, nor will it become gelatinous or thick. The paint adheres tensely to all types of flooring, with excellent visibility and wear resistance both from traffic and from atmospheric agents. High quality paints ensure faster speeds drawing, longer line visibility, and a agreeable aesthetic result.

REFLECTIVE BEAD APPLICATION

Reflective beads apply with a gravity dispenser driven by the same command that drives the painting gun. The "spheres" automatically fall on the strip just drawn. Do not use pre-mixed beads.

NON-STICK GRAVITY TANK 50 L

Thanks to the large capacity of the hopper the tracing times are prolonged due to the absence of frequent interruptions to effect colour change.

MARKING ROAD SIGNS AND CURVES

Airless paint gun can be released within a few seconds of its support, thanks to the 10 meters of airless hose to which it is connected, it allows any work like marking road signs and painting walls.

The front wheel facilitates marking lines up to the sidewalk and easy marking of bows and curves.

INTUITIVE USE BY THE OPERATOR

Operator controls are in front of the handlebar to adjust the road marking machines operation with extreme manageability.

EASY OPERATION, CLEANING AND MAINTENANCE

The cleaning of the airless marking machine is fast due to the absence of pressurized tank to be cleaned and therefore change times colour are very short lived.

The high pressure of the road marking airless machine does not require therefore a preventive cleaning of the ground.

Regular cleaning at work is enough to keep it the machine in perfect efficiency even after long periods of inactivity.

LARIUS Super Fast Clean airless nozzles allow cleaning of the nozzle with a simple rotating movement, without have to disassemble it.

AIRLESS ROAD MARKING MACHINES DIAPHRAGM PUMP

From the proven LARIUS high-pressure technology, a line marking striper for every application

DALÌ PLUS AIRLESS LINE MARKER

High pressure - Manual push - Diaphragm pump
4 l/min - 220 bar - 4,8 HP Yamaha petrol engine

Part No. 18382

Materials

Water or solvent paint without suspended particles

Line type

SINGLE LINE

- 1 Colour
- Continuous - Dashed
- Width from 3 to 30 cm

Applications

MEDIUM SIZE MARKING - MAINTENANCE - PAINTING JOBS

- Roads - Highways
- Galleries - Road tunnels
- Cycle runway
- Outdoor and underground parking
- Playgrounds
- Sports circuits
- Public and private areas
- Airports

11200	AT250 manual airless spray gun - M16 x 1,5 inlet swivel + Nozzle holder
11210	AT250 manual airless spray gun - M16 x 1,5 inlet swivel
11701	LA96 automatic airless spray gun - M16 x 1,5 inlet swivel + Nozzle holder
11708	LA96 automatic airless spray gun - M16 x 1,5 inlet swivel
18270	Airless nozzle holder
SFC	Super Fast Clean airless nozzle. Size from 11-20 to 51-80
TSC	Top Spraying Clean airless nozzle. Size from 7-20 to 31-60
18240	50 l Gravity tank
18245	50 l Gravity tank + Cover
18241	50 l Gravity tank + Cover + Basket
4500	11 l Gravity tank + Glass beads diffuser hose
26000	Operator footboard
4720	Seat kit
4756	Piston accumulator

KITS

PART No.	DESCRIPTION
4307	Mounting kit for second airless gun (airless gun not included)
18359	11 l Gravity tank+ 1 Diffuser hose + 1 Glass beads manual spray gun kit
18354	11 l Gravity tank + 2 Diffuser hoses + 2 glass beads manual spray guns kit
4405/3	11 l Gravity tank + 2 Diffuser hoses + 2 Glass beads automatic spray guns kit
4506	Working light kit
4038	Laser pointer kit
4507	Flashing telescopic rod kit
4840	Gun handling + Front pivot wheel

ECO K21 AIRLESS LINE MARKER

High pressure - Self propelled - Piston pump
2,2 l/min - 220 bar - 0,75 kW Battery power

Materials

Water or solvent paint without suspended particles

Line type

DOUBLE LINE

- 1 Colour
- Continuous - Dashed
- Width from 3 to 30 cm

Applications

MEDIUM SIZE MARKING - MAINTENANCE - PAINTING JOBS

- Internal logistic marking in all areas where line strippers with petrol engine motor are off-limits
- Roads - Highways
- Galleries - Road tunnels
- Cycle runway
- Outdoor and underground parking
- Sports circuits
- Public and private areas
- Airports

ECO K21 SERIES

Technical Data

SERIES	ECO K21
MODEL	Battery
MAX. PRESSURE	220 bar
MAX. FLOW RATE	2,2 l/m
ELECTRIC PUMP ENGINE POWER	0,75 kW
ELECTRIC MOTOR POWER FOR TRACTION	0,50 kW
AIRLESS PAINT CAPACITY	50 l gravity tank
DIMENSIONS	1.920 x 1.450 x 1.580 mm
WEIGHT	280 kg

PART No.	BATTERY	SELF PROPELLED	50 L GRAVITY TANK	AIRLESS HOSE	AT250 MANUAL AIRLESS GUN	AIRLESS NOZZLE HOLDER	SUPER FAST CLEAN AIRLESS NOZZLES
4200	•	•	•	N°1 Part No. 35015 Ø 1/4" - M16 x 1,5 - 10 m	N°1 Part No. 11210 M16 x 1,5 inlet swivel	N°1 Part No. 18270	N°1 SFC 11-40 N°1 SFC 13-40 N°1 SFC 17-40

ECO K21 series includes:

Filter with pressure gauge, recirculation hose, battery charger and tools box.

ACCESSORIES

PART No.	DESCRIPTION
18026	Airless hose Ø 1/4" - M16 x 1,5 - 15 m
11200	AT250 manual airless spray gun - M16 x 1,5 inlet swivel + Nozzle holder
11210	AT250 manual airless spray gun - M16 x 1,5 inlet swivel
11701	LA96 automatic airless spray gun - M16 x 1,5 inlet swivel + Nozzle holder
18270	Airless nozzle holder
SFC	Super Fast Clean airless nozzle. Size from 11-20 to 51-80
TSC	Top Spraying Clean airless nozzle. Size from 7-20 to 31-60
18240	50 l Gravity tank
18245	50 l Gravity tank + Cover
18241	50 l Gravity tank + Cover + Basket
4500	11 l Gravity tank + Glass beads diffuser hose
26000	Operator footboard
4720	Seat kit
4605	Battery charger

KITS

PART No.	DESCRIPTION
4307/1	Mounting kit for second airless gun (airless gun not included)
18359	11 l Gravity tank + 1 Diffuser hose + 1 Glass beads manual spray gun
18354	11 l Gravity tank + 2 Diffuser hoses + 2 Glass beads manual spray guns
4038	Laser pointer kit
4506	Working light kit
4507	Flashing telescopic rod kit

HIGH PRESSURE SPRAY GUNS CONSTANT FLOW FOR DEFINED LINES

AT250 Series. Manual airless spray finishing guns

Superior atomization, fast application, save material.

- Aluminium gun body and ergonomic handle
- High transfer efficiency
- Reduced overspray production
- Long cycle of use

PART No.	DESCRIPTION
11200	AT250 manual airless gun - M16 x 1,5 inlet swivel + Nozzle holder
11210	AT250 manual airless gun - M16 x 1,5 inlet swivel

Technical Data

ACTIVATION	MANUAL
MAX. FLUID PRESSURE	250 bar
MAX. FLUID TEMPERATURE	50 °C
FLUID INLET	M16 x 1,5
WEIGHT	650 g

MATERIALS IN CONTACT WITH FLUID

Aluminium - Stainless Steel - Galvanized steel - Hard metal - PTFE - Brass

Part No. 11200

Spray airless gun butt filters

PART No.	DESCRIPTION	COLOR	MESH	QUANTITY
11039/25	Butt filter	Green	30	25
11038/25	Butt filter	White	60	25
11037/25	Butt filter	Yellow	100	25
11019/25	Butt filter	Red	200	25

Part No. 11039/25 - Part No. 11037/25
Part No. 11019/25 - Part No. 11038/25

LA96 Series. Automatic airless spray finishing guns

Superior atomization, fast application, save material.

- Compact and robust gun body design to integrate in all working areas
- High transfer efficiency
- Reduced overspray
- Long cycle of use

PART No.	DESCRIPTION
11701	LA96 automatic airless gun - M16 x 1,5 inlet swivel + Nozzle holder
11708	LA96 automatic airless gun - M16 x 1,5 inlet swivel

Technical Data

ACTIVATION	AUTOMATIC
MAX. FLUID PRESSURE	300 bar
OPENING AIR PRESSURE RANGE	2 - 6 bar
MAX. FLUID TEMPERATURE	90 °C
AIR INLET	Ø 6 mm
FLUID INLET	M16 x 1,5
WEIGHT	754 g

MATERIALS IN CONTACT WITH FLUID

Stainless Steel - Hard metal - PTFE

Part No. 11701

PERFORMING AIRLESS SPRAYING NOZZLES & HIGH PRESSURE HOSES

Airless nozzle holder

PART No.	DESCRIPTION
18270	Europe airless nozzle holder 11/16" W

Part No. 18270

Airless spraying nozzles

Homogeneous coverage: the optimized design of the paint nozzle makes the product flow more efficient.

- Compatible with a wide range of paint products
- Tungsten carbide structure
- Stainless steel - PTFE gasket
- Quick and easy cleaning

AIRLESS SUPER FAST CLEAN NOZZLES

PART No.	SIZE	l/min 200 bar
SFC 11	20 - 40	0,55
SFC 13	20 - 40 - 60	0,80
SFC 15	20 - 40 - 60	1,10
SFC 17	20 - 40 - 60	1,41
SFC 19	20 - 40 - 60	1,77
SFC 21	20 - 40 - 60	2,15
SFC 23	20 - 40 - 60	2,57
SFC 25	20 - 40 - 60	2,90
SFC 27	20 - 40 - 60 - 80	3,50
SFC 29	20 - 40 - 60 - 80	4,30
SFC 31	40 - 60 - 80	4,83
SFC 33	40 - 60 - 80	5,50
SFC 35	40	6,00
SFC 37	40	6,70
SFC 39	40 - 60 - 80	7,10
SFC 41	40	8,10
SFC 43	40 - 60 - 80	9,67
SFC 45	60	9,80
SFC 47	60	10,70
SFC 51	40 - 60 - 80	12,20

AIRLESS TOP SPRAYING CLEAN NOZZLES

PART No.	SIZE	l/min 200 bar
TSC 7	20 - 40	0,26
TSC 9	20 - 40	0,35
TSC 11	20 - 40	0,55
TSC 13	20 - 40 - 60	0,80
TSC 15	20 - 40 - 60	1,10
TSC 17	20 - 40 - 60	1,41
TSC 19	20 - 40 - 60	1,77
TSC 21	20 - 40 - 60	2,15
TSC 23	20 - 40 - 60	2,57
TSC 27	20 - 40 - 60	3,50
TSC 31	40 - 60	4,83

THE RIGHT WAY TO READ A NOZZLE SIZE

Ex. Airless nozzle size SFC 11 - 40

11 = Ø Orifice

40 = Spray angle

Airless hoses

PART No.	DESCRIPTION
35015	Airless hose Ø 1/4" - M16x1,5 - 10 m
18026	Airless hose Ø 1/4" - M16x1,5 - 15 m

Part No. 35015

USEFUL AIRLESS LINE MARKING ACCESSORIES

Gravity tanks

PART No.	DESCRIPTION
18240	50 l Gravity tank
18245	50 l Gravity tank + Cover
18241	50 l Gravity tank + Cover + Basket
18243	100 l Gravity tank
4041/2	100 l Gravity tank + Cover
4041/2	100 l Gravity tank + Cover + Tank
4500	11 l Gravity tank + Glass beads diffuser hose

Glass beads dispenser kits

PART No.	DESCRIPTION
18359	11 l Gravity tank + 1 Diffuser hose + 1 glass beads manual spray gun
18354	11 l Gravity tank + 2 Diffuser hoses + 2 glass beads manual spray guns
4405/3	11 l Gravity tank + 2 Diffuser hoses + 2 glass beads automatic spray guns

Kits

PART No.	DESCRIPTION
4307	Mounting kit for second airless gun (airless gun not included)
4038	Laser pointer kit
4506	Working light kit
4507	Flashing telescopic rod kit
4840	Gun handling + Front pivot wheel

Operator footboard

PART No.	DESCRIPTION
26000	Operator footboard

Seat kit

PART No.	DESCRIPTION
4720	Seat kit

Piston accumulator

PART No.	DESCRIPTION
4756	Piston accumulator

Battery charge

PART No.	DESCRIPTION
4605	Battery charger

Part No. 26000

Part No. 4720

Part No. 4756
